5th Year MS Program

Learning is more fun than facing the real world!

4+1 MS program

Accelerated Master's Degree in CS, Cybersecurity, or Data Analytics

Normal MS = 10 courses

4+1 program lets you double count 2 courses for both BS and MS

Can also transfer 2 extra courses if you have a light schedule in spring

Grad2grad program provides 10-25% tuition discount

- 4/10 courses paid for as part of undergrad, 6/10 at discounted rate

Even better deal!

We hire MS students as GTAs!

If you have experience as a UTA or LA you may qualify

Aid packages can be as high as full tuition coverage plus $20K salary for the year!

Process

Apply between now and November 1st

- CS MS degrees require 3.3 tech GPA
- Data Analytics MS requires 3.0 tech GPA

Admission decisions made on rolling basis

Aid packages will not be released until spring

You need to accept/decline by April 15th

Programs

MS in CS - 3 core courses + 7 electives

MS in Cyber Security in CS - 3 core courses + 5 security + 2 electives

MS in Data Analytics - Big Data + DB + Stats + ML + Algorithms + Capstone + 5 Electives
